Epic	User Story ID	Acceptance Criteria	Test ID	Acceptance Test	Critical		Test Result		Comments
					Yes	No	Accept	Reject	
Submit the BSP form	US 1.1	Given the practitioner enter the home page, when I click on the download button, then I should successfully download an empty BSP form to my local device	AT0001	Viewing the success message displayed to notify the practitioner to download the empty BSP file successfully					
			AT0002	Downloading an empty BSP file to my local device					
	US 1.2	Given I log in to the website, when I click on the "New Participant Plan" button, then the system should redirect the user to the first submission page (Plan details page)	AT0003	Redirect to the support plan submit page					
			AT0004	Viewing the success message displayed to notify users to provide information successfully					
		Given I provide all the required submissions details by filling the information in each text box on the first submission page (Plan details page), when I click on the "NEXT" button on the submission page, then the system should display a success message to notify that the user provide information successfully	AT0005	Redirect the user to the second submission page (upload pdf page)					
			AT0006	Viewing the error message displayed to notify the practitioner does not provide all the required information					
		Given I do not provide all the required submissions details by filling the information in each text box, when I click on the "NEXT" button on the submission page, then the system should display an error message to notify that the user does not provide all the necessary details	AT0007	Viewing the status displayed to notify the uploading progress of the uploaded BSP file inside the dragging area					
			AT0008	Viewing the success message displayed to notify the local BSP pdf file is uploaded					
		Given I have provided the required information on the first submission page and be redirected to the second submission page (upload pdf page), when I upload the local BSP pdf file by dragging it to the specified dragging area, then the system should display a message to illustrate if the file submits successfully or failed.	AT0009	Viewing the status displayed to notify the uploading progress of the uploaded BSP file inside the dragging area					
			AT0010	Viewing the success message displayed to notify the local BSP pdf file is uploaded					
		Given I have dragged the local BSP pdf file to the specified dragging area on the submit page, when I click on the "NEXT" button on the submission page, then the system should display a success message to notify that the user uploads the BSP pdf files successfully and redirect the user to the third submission page	AT0011	Viewing the success message displayed to notify the submission is complete					
			AT0012	Redirect to the third submission page (Template summary form page)					
		Given I do not drag the local BSP pdf file to the specified dragging area on the submit page, when I click on the "NEXT" button on the submission page, then The system should display an error message to notify that the user does not upload any required BSP pdf file	AT0013	Viewing the error message displayed to notify no corresponding file detected					
			AT0014	Viewing the status of the processing of submission					
	US 1.3	Given I have uploaded the BSP pdf file and been redirected to the third submission page (Template summary form page), when I finish the summary form and click on the "SUBMIT" button then the system should keep track of the submission process and display the message to notify the user if the support plan submits successfully or not.							

View the feedback from the system		Given I have submitted the support plan,	AT0015	Redirect the user to the homepage when the user clicks on the "Return to Home" button					
		when the system finishes processing the submission, then the user can choose return to home or check the feedback	AT0016	Redirect the user to the corresponding feedback page of the submission when the user clicks on the "View Feedback"					
	US2.1	Given the form is successfully uploaded, when feedback is ready to be viewed, then the system should present the feedback with the submitted BSP form which demonstrates the score of each component of the BSP form displayed in separate rubric items	AT0017	Viewing the scores of each component which represent each rubric					
		Given the user is on the feedback page, when I click on one of the scores of the component, then the system should present the feedback in detail with the modification suggestion for that component	AT0018	Each component should extend and display the modification suggestion in detail					
			AT0019	The corresponding component should collapse if the user re-clicks on it					
	US2.2	Given practitioners enter in one submission feedback page, when I click on one of the links under the suggestions, then the system should navigate the user to the corresponding module and resource page to help the user gain more knowledge about this part	AT0020	The system will open a new link for the corresponding resource page or module					
	US2.3	Given the form is successfully uploaded, the practitioner is on the feedback page, when practitioners click on the "share plan" button on the feedback page, then the system should generate a link for the understandable feedback page and send it to the family member of PwD	AT0021	Viewing a pop-up window with the share link					
			AT0022	The user can copy the link to the clipboard by clicking on the "COPY" button					
			AT0023	The user can type in the name and the email address of the family contact in the text box					
			AT0024	The user can click on the "email plan" button and the system can send the link to the family members corresponding to the family contact details					
			AT0025	The System should close the "Share Link" window by clicking on the "DONE" button					
		Given the form is successfully uploaded, the user (family member of PwD) has already received the link when I click on the specified link sent to my mailbox on the website, then the system opens a new page to present the content of user-friendly feedback	AT0026	Viewing the scores of each component which represent each rubric					
		Given the form is successfully uploaded, the user (family member of PwD) has already received the link when I click on the specified link sent to my mailbox on the mobile APP, then the system presents the content of user-friendly feedback in the APP	AT0027	Jumping to the Rubric page in the APP					
		Given the user is on the feedback page when I click on one of the scores of the component, then the system presents the feedback in detail with the modification suggestion for that component	AT0028	Each component should extend and display the modification suggestion in detail					
			AT0029	The corresponding component should collapse if the user re-clicks on it					
	US2.4	Given the form is successfully uploaded by the support practitioner, the user (family member of PwD) receives the share link and redirect to the feedback page on the website when I click on the "fill in survey" button on the feedback page on the feedback page, then the system should present a pop-up page with the content of the survey	AT0030	Viewing the pop-up window with the survey content					
			AT0031	Users can rate the service by clicking on the rating star					
			AT0032	Users can type constructive feedback in the text box					
		Given the form is successfully uploaded by the support practitioner,	AT0033	Viewing the content of the survey					

		the user (family member of PwD) receives the share link and redirect to the feedback page in App	AT0034	Users can rate the service by touching the rating start on the screen					
		when I click on the "Survey" bar at the top of the screen	AT0035	Users can type constructive feedback in the text box					
		then the system should present a survey page							
		Given the user (family member of PwD) opens the pop-up page of the survey	AT0036	Viewing a success message notify that the submission is done					
		when I finish the survey and click on submit on the survey page,	AT0037	The user can close the pop-up window by clicking on the "Close button"					
		then the system should display a message to illustrate if the survey results submit successfully or failed and close the pop-up page							
Keep track of the Submitted Form	US 3.1	Given the form is completed and a BSP is uploaded	AT0040	Redirect to the processing page after clicking the 'Next' button on the template survey page					
		When I click the 'Next' button, finish filling in the survey, and click next,							
		Then the system redirects to the processing page if the submission was successful.							
		Given on the processing page and the progress bar indicates the process has been done	AT0041	'View Feedback' button is displayed on the screen after the machine learning model has finished processing the BSP form					
		When I click the 'View Feedback' button	AT0042	Redirected to feedback page after clicking 'View Feedback'					
		Then I will be redirected to the feedback page							
		Given on the processing page the progress bar indicates the process has been done	AT0043	'Return to Home' button is displayed on the screen after the machine learning model has finished processing the BSP form					
		When I click the 'Return to Home' button	AT0044	Redirected to home page after clicking 'Return to Home'					
		Then I will be redirected to the home page							
		Given the form is completed and a BSP is uploaded	AT0045	Viewing a failure message displayed in a popup window to indicate the error					
		When I click the 'Next' button but experience an unexpected error ie, a network connection issue,	AT0046	Return to the submit page after the user clicks the confirm button.					
		then the system shows a failure message and returns to the submission page							
Retrieve BSP form submission history	US 3.2	Given the form is successfully uploaded,	AT0047	An email is generated by the system and sent to the practitioner					
		when the feedback is ready to be viewed,	AT0048	The link to the feedback page is attached to the email					
	US 4.1	then I should receive an email generated by the system to notify me that I can go to read the feedback now							
		Given I have previously submitted one or more BSP forms,	AT0049	A list of previously submitted BSP forms is displayed on the page					
		when I am on the homepage	AT0050	Each BSP form is displayed as a thumbnail					
		then I should be able to see all my previous submissions' thumbnail	AT0051	Each BSP form is displayed with its title and submission date					
		Given on the home page	AT0052	A list of previously submitted BSP forms is displayed on the page					
		when I click a thumbnail/name of the previously submitted BSP form	AT0053	Redirect to the feedback page by clicking a BSP form					
		then I should be redirected to the feedback page of that BSP form							
		Given on the feedback page,	AT0054	A sidebar with version numbers and the submit date are will be shown when clicking the 'view version history' button					The sidebar can be empty if no previous submission was founded
		when I click the 'view version history' button,							
		then I should be able to see a sidebar with the version number and submit date of previous submissions that linked to this submission							
		Given on the feedback page with the version numbers displayed in a sidebar,	AT0055	The practitioner will be redirected to the BSP feedback page that they selected after choosing a version in the dropdown list.					
		when I click one of the version numbers listed in the sidebar,							

	then I should be redirected to the corresponding feedback page of a BSP form with the specified version number.	AT0056	An error message should be displayed if an error occurred during retrieving the BSP feedback					
	Given on the home page with thumbnails of submitted BSP forms	AT0057	A view switch button is displayed on the page					
	when I click a switch view button	AT0058	All the BSP forms will be displayed as a list of submission information including NDIS participant, family contact, disabilities, page, current version, and last update time.					
	then the BSP forms will be displayed as a list of BSP forms with their submission information							
	Given on the home page with a list of BSP forms with their submission information	AT0059	A view switch button is displayed on the page					
	when I click the switch view button	AT0060	All the BSP forms will be displayed as thumbnails with names and the submission dates after clicking the switch button					
	then the BSP forms will be displayed as thumbnails with names and the submission dates							
	Given on the home page with a list of submission information	AT0061	Dropdown lists of shortcut option are displayed after the user click the button					
	when I click the button with the ellipsis icon	AT0062	When clicking the 'reupload plan' option, the user will be redirected to the re-upload page					Tests for re-upload are identical to tests in US 4.4
	then I will be able to see the shortcuts for share plan, delete plan and re-upload plan.	AT0063	When clicking the 'delete plan' option, a confirm window will be displayed to confirm the operation					Tests for re-upload are identical to tests in US 4.4
		AT0064	When clicking the 'share plan' option, a window containing the share link will be popped up and the user can click the 'copy' button to copy the link and user can click 'done' or the cross button to close it					
US 4.2	Given On the home page with a list of submitted BSP forms,	AT0065	An input box will a search icon will be on the page					
	when I insert some keywords in the input box and click the Search Icon	AT0066	A list of thumbnails of BSP forms that match the keyword that the user inserted will be displayed after the user clicks the Search icon					
	then all submissions that match the keywords will be displayed on the page	AT0067	A warning will be shown if the user did not insert any text and click the search icon					
		AT0068	A message will be displayed on the page to inform the user if no matched BSP form has been found					
US 4.3	Give on the feedback page of the submitted BSP form	AT0069	Redirected to upload page after the practitioner clicks the reupload, to ask the practitioner to upload a BSP file.					
	when I click on the re-submit button	AT0070	The uploaded file will be displayed in the upload window with its name					
	then I should be redirected to the upload page							
	Given on the upload page	AT0071	Highlight the upload box if the user clicks 'Next' without uploading a BSP					
	when uploading a BSP and clicking on the 'Next' button,	AT0072	Display an error message if the practitioner attempts to upload a file in a format other than PDF					
	then I should be redirected to the template survey page	AT0073	go to the template survey page if the practitioner click 'Next' with a BSP uploaded					
		AT0074	Display an error message when the upload is not successful and return to the upload page					
	Given the On the upload page	AT0075	go back to the feedback page after clicking the 'Back' button on the upload page					
	when I uploaded a BSP then I click on the 'Back' button							
	then I will go back to the feedback page							
	Given on the upload page	AT0076	Show a 'Next' button after successfully uploading a file					
	when finish uploading a BSP file							
	then I should see a 'Next' button if the uploading is successful							
	Given On the template survey page	AT0077	Return to the upload page after the user clicks the 'Back' button on the survey page					
	when I click the 'Back' Button	AT0078	The name submitted file will be displayed on the upload page					
	then I will go back to the feedback page							
	Given on the template survey page,	AT0079	Redirect to the processing page once the BSP form and template survey have been successfully submitted					
	when I finish filling in the survey and click the 'Next' Button,	AT0080	Display an error message when the submission is not successful and return to the template survey window					
	then I should be redirected to the processing page so that I know the submission was successful.							
US 4.4	Given on the feedback page	AT0081	A confirm window shows after clicking the button on the feedback page
